# Vietnam e-visa

Facts as at 07/10/2026

## Who this is for

Foreigners outside Vietnam seeking short electronic entry for tourism and other short purposes declared on the application.

## At a glance

The Vietnam electronic visa (EV) is issued through electronic transactions to citizens of countries and territories designated by the Government. It permits entry and exit through designated international border checkpoints for a duration of up to 90 days. Upon expiration, applicants may be considered for a new visa.
Who it is for: Foreigners outside Vietnam seeking short electronic entry for tourism and other short purposes declared on the application.
Stay: Up to 90 days is a common issued length
Processing time: 3 days

## Why people choose it

Electronic visa for tourism and some other symbols. The symbol decides the activity.

## Eligibility

What you need to show: Outside Vietnam valid passport not subject to entry suspension under Art. 21 enter and exit only via e-visa-allowed ports listed by Immigration.
Work: Not a work visa. Activity must match the visa symbol/purpose declared.
Sponsor: Self-application on the official e-visa portal (no Vietnamese sponsor required for the standard e-visa path).
Other conditions: Print the approved e-visa to enter/exit.
Renewal: When a visa expires, the issuance of a new visa will be considered. If converting the visa purpose (such as holding an e-visa and obtaining a work permit or exemption certificate), a new visa with a code and duration corresponding to the converted purpose may be granted.

## Documents

Photo
